Press information, May 2019

The Volvic Volcanic Experience – VVX – offers an athletic immersion into what is one of France's most iconic landscapes: the Chaîne des Puys – Faille de Limagne, newly designated as a UNESCO World Heritage Site! The VVX will embark all athletes, trail runners and hikers on an odyssey of the senses through the pristine natural landscapes at the heart of this unique natural site, shaped over the years by volcanoes, stone and water.

Beyond the simple athletic performances, the invitation to **explore and discover** is also at the heart of the event's program of conferences and shows. This 3rd edition is already characterized by an impressive line up of guests of honor, athletes, experts, researchers, doctors, nutritionists... Not to mention the explosive program of fun and music. CLOSING CEREMONY – Saturday 1st June – starting at 19:00

19:00 – Dinner 20:00 – Closing concert

20:00 - Kawrites

When traditional violin tunes collide with mesmerizing electro beats at the heart of the night, it means that Romane Santarelli and Marion Lhoutellier, a local duo from Clermont-Ferrand, are around. As soon as they hit the stage, you're drawn into their world somewhere between fantasy and reverie, a musical universe influenced by numerous artists such as Rone or Birdy Nam Nam.

21:30 - Minuit

Introducing 'Vertigo', the hit album praised by both fans and critics after a surprise tour around France's 4 corners. We couldn't have hoped for anything better than this first album by Simone Ringer (song), Raoul Chichin (guitar), Joseph Delmas (guitar) et Clément Aubert (bass).

23:00 - Yarol

No need to introduce him, the man who once played with Johnny Hallyday, Camille Bazbaz and Winston McAnuff, will be closing up with a bang the 3 days of the VVX. As the intuitive esthete that he is, his never ending need to feed his musical curiosity with different sounds: rock, blues, punk, hip-hop, afrobeat, funk, soul, electro... Anything, as long as it gets you moving, sweating and electrified!

Practical information: Goulet site
